## CAREER OBJECTIVE

---

As a Java developer at Accenture, I have strong technical skills and hands-on experience which I apply to solve complex challenges. I'm driven to further expand my expertise in a collaborative, innovative environment, contributing to impactful projects and technologies.

## EXPERIENCE

---

### Java Developer (2024 - Present)

Accenture

- Developed and maintained scalable Java web applications using Java, Spring Boot, and RESTful APIs to support client requirements and enhance user experience.
- Implemented database management using SQL, optimizing queries and improving data retrieval performance across applications.
- Utilized agile methodologies for project planning, sprint execution, and continuous integration, improving project efficiency and team collaboration

## EDUCATION

---

### G. Pulla Reddy Engineering College, Autonomous, Kurnool (2020-2024)

CGPA: 9.28

Computer Science and Engineering

## SKILLS

---

- Java
- Javascript
- Springboot
- React JS
- SQL
- Git
- HTML
- CSS

## PROJECTS

---

### RECIPE SHARING APP

- Technologies : ReactJS, Springboot, MySQL
- Source Code : <https://github.com/LeelaRohith/Recipe-sharing-app.git>
- Description : Implemented REST APIs for users to share, edit recipes, and view others' recipes. Utilized AWS services, including MySQL RDS for data storage and S3 bucket for image storage.

### MEDSURPLUS

- Technologies : ReactJS, NodeJS, MangoDB
- Source Code : <https://github.com/LeelaRohith/MEDSURPLUS>
- Description : Put into practice a creative idea to decrease medical waste by encouraging people to return their unused medications to pharmacies.

## CERTIFICATIONS

---

- **Microsoft Technology Associate (MTA)** : Introduction to programming using Java  
Microsoft, 2022
- **Java and Spring framework for beginners**  
Udemy, 2023
