  Udemy, 2023

PROJECTS

RECIPE SHARING APP
- Technologies : ReactJS, Springboot, MySQL
- Source Code : https://github.com/LeelaRohith/Recipe-sharing-app.git
- Description : Implemented REST APIs for users to share, edit recipes, and view others' recipes. Utilized AWS services, including MySQL RDS for data storage and S3 bucket for image storage.

MEDSURPLUS
- Technologies : ReactJS, NodeJS, MangoDB
- Source Code : https://github.com/LeelaRohith/MEDSURPLUS
- Description : Put into practice a creative idea to decrease medical waste by encouraging people to return their unused medications to pharmacies.

EXTRA CURRICULAR ACTIVITIES

- Worked as a volunteer for CSI Student branch of our college during the academic year 2021-2022
- Organized an event " Techbot " on behalf of the CSI Student branch of our college during the academic year 2021-2022
